Weather Resistant

All of our products are intended for outdoor use, and so don't require any care or maintenance to last for many years (if not centuries). The only exception is our fountains, which should be drained and the pump removed, if freezing temperatures are expected.

Pressure Washable

Over time, our stone products will develop a natural patina of moss and lichens as they weather. If desired, this surface patina can be removed with a pressure washer. We recommend you never use harsh chemicals, acids or bleach on stone.

Hand-crafted Stone

Carefully carved by human hands, making each piece unique. Guaranteed by Mother Nature to last a lifetime.

RAINBOW SANDSTONE

Rainbow sandstone is a layering of fine grained quartz and various other minerals, which add the gorgeous color to the stone.

The concentration of other minerals will vary the color with beautiful brown, violet or reddish veins.

Stone Age Creations, located in Ohio, has been designing exceptional natural stone statuary for over 20 years. Trust that when you buy a product from Stone Age Creations, it is second to none.
